

ALBERTVILLE FARMERS' MARKET

Welcome from the AFM Advisory Committee

Hello!

Welcome to the Albertville Farmers Market. We, the AFM Advisory Committee, would like to thank you for your support and provide to you a little more background information about the exciting changes at our market in 2015 – our very first year with the “new market”.

Our mission at the AFM is to support the development of local sustainable farming by cultivating a vibrant Farmers' Market that serves as a community gathering place celebrating local farmers, food producers, and artisans.

Farmers markets have always been a place where products grown by producers are available in a convenient marketplace. However, today, we hope the AFM is more than just a place to buy and sell. It is about information. It's no secret that customers, in general, are several generations away from the farm. With your help, we are bringing the farm back to those people and educating them about where their food is coming from, how to prepare it, how long it lasts, and more.

We hope the AFM becomes a community gathering place where people can get to know their farmers, know their food, and of course enjoy themselves! We are about **local** food, supporting and celebrating the farmers and food artisans who make it possible. We want to keep food dollars in our community. We want to provide healthy food to our friends and neighbors. You are helping us make that possible!

There are six of us who serve on the Albertville Farmers Market Committee, and we are looking forward to meeting you. Please feel free to contact the Market Manger with any questions you have. We're excited about the future of the AFM. See you at the market!
